EDUCATION

M.A. Graphic Design
Savannah College of Art and Design
May 2010
B.F.A. Film
New York University
January 2005

FRONT-END ENGINEER

Marin Software San Francisco, CA / October 2014–Present

Responsible for maintenance and development of all front-end code in the Perfect Audience retargeting platform including construction and design of new features and user interfaces. Works closely with back-end and full-stack team members to roll-out new application features within the Ruby on Rails environment.

Special tasks include: building custom jQuery plug-ins for internal use, updating legacy code and frameworks to be more responsive, organized and maintainable, creating site graphics and occasional illustrations and quickly writing and deploying fixes for bugs.

FREELANCE WEB DEVELOPER / DESIGNER

Scott Vrabable Design + Development Brooklyn, NY / 2011–Present

Specializing in front-end web development utilizing React.js and Redux, HTML5, CSS3 and JavaScript / jQuery to implement lightweight, responsive designs. Building custom Wordpress themes from scratch and customizing the framework to suit the needs of the client.

WEB DEVELOPMENT INSTRUCTOR

Noble Desktop, LLC New York, NY / May 2011–September 2014

Recurring freelance instructor at Noble Desktop, one of the top-ranked web graphics instructional schools in the country. Typically taught about 12 hours per week, during both evenings and weekends. Wrote and contributed to several front-end training titles and classes.

WEB DEVELOPER / DESIGNER / TRAINING CONSULTANT

Macmillan Publishers New York, NY / October 2011–September 2014

Coded mobile responsive web sites with modern HTML5 and CSS3 best practices, made JavaScript / jQuery-powered proprietary tools, custom Wordpress sites and single-page applications, conducted A/B landing page testing and general troubleshooting. Developed training materials and courses concerning various digital technologies.
